EUROPE.

Obsequies of Mr. Penhoby.

LONDON, November 12.

The obsequies of George Penhoby took place this afternoon. The procession was formed at the mansion of Sir Curtis Lampton. It consisted of a hearse and five mourning coaches. Following the procession were carriages of the Queen, the Prince of Wales, Sir Curtis Lampton, the Lord Mayor and Aldermen of London, the High Sheriffs of London and of the Counties of Middlesex and Surrey, the Duchess of Somerset, the Marquis of Townshend, Lady Franklin, Miss Burdett Coutts and many others.

The funeral cortege passed slowly through the streets, which were lined with crowds of silent spectators, to Westminster Abbey. The venerable structure had been completely filled with people, who had been admitted by tickets, and were all dressed in mourning. The choir was hung with black, and the somber aspect of the interior was only relieved by the robes of the Lord Mayor and Sheriff. Standing near the altar, as the body was laid in, were Mr. Gladstone, Lord Clarendon, the Dean of St. Paul's, Rev. Thomas Binney, a dissenting minister, Dr. Day and John Bright.

A flood of sunshine poured through the windows at the moment the procession entered the building. The coffin, which was placed on a bier at the end of the choir, was plain and unadorned, covered with black. On the lid was a breastplate, with an inscription giving simply the name of deceased, place and date of birth, and death. The lesson was read by the Archdeacon of Westminster. As soon as the ceremony within the church was over, the procession formed again and advanced to a spot near the western entrance, where a temporary grave had been prepared, and an excavation two to three feet deep made, the sides of which were lined with black drapery.

Here the body was deposited, and will remain until taken to America. Lord John Thunne read the remainder of the burial service at the head of the grave. On the right stood the mourners, including the United States Minister, and on the left were General Grey, Mr. Gladstone, Lord Clarendon, the Lord Mayor, High Sheriffs, and the clergy of Westminster and St. Paul's.

After the coffin had been lowered into the grave, a floral cross was placed on it. This act was witnessed in profound silence, and served to the people the lesson which pervaded the congregation. The people then moved around the coffin, and took a last look at the features of the dead.
